As part of the new furniture generation, MADERA shows how functionality and design are compatible – in every precise joint, angular edge, multi-functional drawer. Here, there is also space for a short distance projector that can replace the TV.

As part of the new furniture generation, MADERA shows how functionality, conservation of resources and design can be combined – in every precise joint, angular edge, multi-functional drawer. If required, there is also space for a short distance projector that can replace the TV.
